

# Project Report #6

## Documentation Agent

# AI Generated Draft Gemini quota limit reached. Project Context: You are a Senior Technical Writer. Project: hi Architecture: # AI Generated Draft Gemini quota limit reached. Project Context: You are a Senior Software Architect. Project: hi Generate: 1. System Architecture 2. Database Design 3. API Design 4. Folder Structure 5. Deployment Architecture Suggested Solution: \* Frontend: React + TypeScript \* Backend: FastAPI \* Database: PostgreSQL \* Authentication: JWT \* Deployment: Docker This is fallback content generated by CodeForge AI.

## Research Agent

# AI Generated Draft Gemini quota limit reached. Project Context: You are a Senior Software Architect. Analyze the following project: hi Generate: 1. Functional Requirements 2. Non Functional Requirements 3. Recommended Tech Stack 4. Challenges 5. Development Roadmap Suggested Solution: \* Frontend: React + TypeScript \* Backend: FastAPI \* Database: PostgreSQL \* Authentication: JWT \* Deployment: Docker This is fallback content generated by CodeForge AI.

## Architect Agent

# AI Generated Draft Gemini quota limit reached. Project Context: You are a Senior Software Architect. Project: hi Generate: 1. System Architecture 2. Database Design 3. API Design 4. Folder Structure 5. Deployment Architecture Suggested Solution: \* Frontend: React + TypeScript \* Backend: FastAPI \* Database: PostgreSQL \* Authentication: JWT \* Deployment: Docker This is fallback content generated by CodeForge AI.

## Coding Agent

# AI Generated Draft Gemini quota limit reached. Project Context: You are a Senior Software Engineer. Project: hi Research: # AI Generated Draft Gemini quota limit reached. Project Context: You are a Senior Software Architect. Analyze the following project: hi Generate: 1. Functional Requirements 2. Non Functional Requirements 3. Recommended Tech Stac Suggested Solution: \* Frontend: React + TypeScript \* Backend: FastAPI \* Database: PostgreSQL \* Authentication: JWT \* Deployment: Docker This is fallback content generated by CodeForge AI.

## Testing Agent

# AI Generated Draft Gemini quota limit reached. Project Context: You are a Senior QA Engineer. Project: hi Coding Plan: # AI Generated Draft Gemini quota limit reached. Project Context: You are a Senior Software Engineer. Project: hi Research: # AI Generated Draft Gemini quota limit reached. Project Context: You are a Senior Software Architect. Suggested Solution: \* Frontend: React + TypeScript \* Backend: FastAPI \* Database: PostgreSQL \* Authentication: JWT \* Deployment: Docker This is fallback content generated by CodeForge AI.
